New Custom Object

Custom Object Definition Edit   [Save] [Save & New] [Cancel]

Custom Object Information

The singular and plural labels are used in tabs, page layouts, and reports.

Label	LinkedIn_info	**Example: Account**
Plural Label	LinkedIn_info	**Example: Accounts**
Starts with vowel sound	☐	

The Object Name is used when referencing the object via the API.

Object Name	LinkedIn_info	**Example: Account**

Description	

Context-Sensitive Help Setting   ⦿ Open the standard Salesforce.com Help & Training window
◯ Open a window using a Visualforce page

Content Name   --None-- ▼

Enter Record Name Label and Format

The Record Name appears in page layouts, key lists, related lists, lookups, and search results. For example, the Record Name for always called "Name" when referenced via the API.

Record Name	LinkedIn_info Name	**Example: Account Name**
Data Type	Auto Number ▼	
Display Format	LN-{0000}	**Example: A-{0000}** <u>What Is This?</u>
Starting Number	1	

New Custom Object Tab

Step 1. Enter the Details

Choose the custom object for this new custom tab. Fill in other details.

Select an existing custom object or create a new custom object now.

Object | LinkedIn_info ▾ |

Tab Style | Hammer | 🔍 |

(Optional) Choose a Home Page Custom Link to show as a splash page the first time your users click on this tab.

Splash Page Custom Link | --None-- ▾ |

Enter a short description.

Custom Tabs

You can create new custom tabs to extend Salesforce functionality or to build new application functionality

Custom Object tabs look and behave like the standard tabs provided with Salesforce. Web tabs allow you
to embed Visualforce pages. Lightning Component tabs allow you to add Lightning components to the nav
Pages to Lightning Experience and the mobile app.

Custom Object Tabs | New | What Is This?

Action	Label	Tab Style	
Edit | Del	FB_info		Cell phone
Edit | Del	LinkedIn_info		Hammer

Salesforce Mobile and Lightning
Experience Actions ⓘ

Actions in this section are predefined by Salesforce. You can override the predefined actions to set a customized list of actions on Lightning Experience and mobile app pages that use this layout. If you customize the actions in the Quick Actions in the Salesforce Classic Publisher section, and have saved the layout, then this section inherits that set of actions by default when you click to override.
